A Higher Transformation

When Alecia Wellen talks, she's got a way of making you believe anything is possible.

As a coach, consultant and Reiki Master, she knows exactly how to help high-achieving leaders tap into their full potential, but her secret power also lies in the fact that she spent the first half of her career in the world of corporate finance.

"I'm creative and spiritual, but I'm also highly analytical," she says. "I understand the pressures of the corporate world because I lived them, too."

The true beauty of her coaching, she says, is that it's a jumping off point for discovery and transformation. And whether her clients work with her for one hour or twelve months, they describe the end result as limitless, bold, courageous, and free.

"Clients find me because a shift is happening in their life, and they're ready to step up and grab what the Universe has been trying to give to them all along," she says. "They want to be a higher version of themselves, and I'm here to show them how that's possible."
